Re: Time Extension Request, Permit Application for Large Mining Operation, Larson Limestone Quarry, M/049/011, Utah County, Utah.

Dear Mr. Larson:

The Division has considered your April 24, 1996, request to extend the deadline for submitting your Notice of Intention to Commence Large Mining Operations for the Larson Limestone Quarry in Utah, County, Utah.

The Division was anticipating a draft of the Notice by May 1, 1996, with the final, complete application to be submitted by July 1, 1995. Thank you for notifying us of the extenuating circumstances surrounding the change in mine ownership, which caused a delay in the preparation of the draft permit application. Since there was no mention of the draft submittal in your letter, the Division is assuming that the requested extension until August 2, 1996, is for the complete version of the permit application. The Division hereby grants this extension. If our assumption is incorrect, please contact me or Lynn Kunzler of my staff at your earliest convenience to discuss this matter. Please don't hesitate to call if you have any other questions in this regard.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor
